Bogotá
2019
High School Diploma

+ ABOUT ME

Systems and Computer Engineering student with an interest in Cybersecurity, Data Analysis, and AI Automation. I have knowledge in web development, programming, and databases. I am looking for an environment that challenges me technologically and allows me to contribute to projects focused on innovation and digital transformation.

+ EXPERIENCE

- Independent JAN. 2023 – PRESENT
Bogotá
ACADEMIC AND PERSONAL PROJECTS
 - **Predator-Prey Simulation (Python, Pygame, POO):** Simulation based on the Lotka-Volterra model with real-time visualization. Control of ecological variables through object-oriented programming
 - **Interactive Weather Map (Python, Tkinter, APIs):** Application that consumes climate data from OpenWeatherMap and displays it on an interactive map. Use of requests and JSON handling.
 - **Communication Server (Flask, Sockets, HTTP):** Local server for messaging between two devices. Developed with Flask and sockets for basic communication.
- Pañalera Juan Felipe Baby & Kids JAN. 2021 – JUN. 2025
Bogotá
SALES ASSISTANT
 - Strengthened effective communication and customer service skills.
 - Managed inventory processes, improving response times.
 - Worked in dynamic, high-pressure environments as part of a team.

+ LANGUAGES

- Spanish (Native)
- English (B1)
